

The Masterfoam Group has been processing flexible materials with technological diversity for 60 years. We develop and produce customized products based on flexible foam, cellular rubber and non-woven materials. Masterfoam has production facilities in the Netherlands, Spain, Mexico and Sieu-Magherus, Romania. Masterfoam is an established partner to the automotive, packaging and general industries.

As we continue to grow, we are seeking a dynamic and experienced Head of Production to join our team and lead our production department “Composite Foam” to new heights.

Head of Production

Department Composite Foam

The Job Description

The Head of Production of the Department Composite Foam will be responsible for overseeing all aspects of our production processes, ensuring efficiency, quality, and timely delivery of products. This role requires a strategic thinker with strong leadership skills and a deep understanding of production management.

- Lead and manage the production team to achieve operational excellence.
- Develop and implement production strategies to meet company goals.
- Ensure compliance with safety and quality standards.
- Optimize production processes to improve efficiency and reduce costs.
- Collaborate with other departments to ensure seamless operations.
- Monitor production metrics and prepare regular reports for senior management.
- Drive continuous improvement initiatives within the production department.

The above is meant to describe the General requirements and the work carried out by this position. It should not be taken as an exhaustive list of tasks, responsibilities or requirements of this job position.

The Successful Applicant:

An education in production management and an engineering degree in electrical engineering, mechanical engineering or automation is required.

- Minimum of 5 years of experience in a production management role.
- Proven track record of successfully leading production teams.
- Strong understanding of production processes and quality control.
- Excellent problem-solving and decision-making skills.
- Ability to work under pressure and meet tight deadlines.
- Exceptional communication and interpersonal skills.

We offer:

- Permanent position with long-term job and career prospects in a growing and internationally operating company
- A wide range of tasks with a high degree of personal responsibility, a young and dynamic team and fast decision-making processes through flat hierarchies
- Plenty of room for your professional development and the chance to take responsibility to achieve sustainable growth
- Attractive and partly performance-related compensation package

If you are a motivated and experienced production leader looking for a new challenge, we would love to hear from you. Join us at Masterfoam and help us shape the future of our industry.
